WHITEFIELD, N. H.
E. L. PROCTOR, BOOK AND JOB PRINTER,
1900.

Selectmens' Report.

The selectmen of Whitefield beg leave to submit the following report of their proceedings for the past year. On assuming office we found in the treasurer's hands, cash \$2,110.90, notes \$1,094.38 the whole amount of assets as reported was \$5,097.31. The bonded indebtedness of the town matured July 1st, and has been paid by town notes. One bond of \$50.00 not reported since 1893 came up for redemption. The heavy snows and drifts of 1898-9 made the expense of breaking roads far above the ordinary, the total of this bill was \$675.45. The expenses in the Yu-No-Beer case, paid the present year was about \$140. In carrying out the instructions of the town we have been obliged to employ legal council at a cost of \$90. In caring for the unfortunate of the town we have been to the expense of about \$265.00 which is an expense not often incurred as most of our pauper bills are paid by the County. While the itimized report looks as though the town had been helping Mrs. Tyler for the entire year, she infact has had no help since May 8th, all bills bearing a later date were incurred prior to that time. One family whose name appears among those receiving help, has had no aid the entire year, the bill failed to be presented for adjustment the previous year.

Permanent improvements in concrete sidewalks have been made at an expense of about \$1,200.00 nearly \$300.00 of this amount has been paid by property owners along the line of the sidewalks. The sewerage has been extended by an outlay of about \$200.00. The town house has received two coats of paint at an expense of \$78.50. To provide a receptacle for the magnificent present of our townsman, Dr. G. H. Morrison, a tower has been placed upon the town house at an expense of \$400.00. The town vault has been removed from its past location to a better foundation opening direct from the selectmens' office, where to all appearance the books will be hereafter kept free from mold.

We are glad to be able to report that after paying all of the ordinary and extra expenses of the town we have \$716.88 to pay on indebtedness. To the itimized report we invite your attention.

Respectfully submitted,

Last year, I reported that there were certain fees due from the Court to individuals, and for that reason, had no balance to turn into the treasury. The town has collected, not through this court, substantially the costs, etc., reported due to the Court in the last reported. Also one sentence (paying of costs) has been directly collected by the Selectmen this year by deducting the amount due from certain monies owed by the town to the respondent. This year not only have all costs been paid and unpaid fees carried over from last year liquidated, but the town is actually in receipt of a substantial balance, as is shown by the following report :

C. EDWARD WRIGHT, Librarian.

GENERAL REPORT.

There is little beyond the ordinary in the history of the progress of the library during the year of 1899. The circulation has been sustained and the growth of the library has been normal. The library has been extensively used by summer guests and it has now become a not unimportant factor in the drawing of guests to this community.

The quarterly Bulletin has been a great success. Useful to local patrons, it has extended its usefulness beyond the borders of the town. It has elicited many expressions of praise from without; and the applications from various libraries and individuals for complete files of the Bulletin have been greatly in excess of our ability to supply. It is therefore unfortunate that its continuance is a matter of grave doubt. It has proven to be altogether too great a tax upon the librarian's time.

The time has come when we must call the attention of the town to the poor accommodations afforded for the storing and use of the books. In fact, the library has almost reached the limit of the library room's capacity. We need a fire-proof library building. It has become a very wise custom now for wealthy citizens or former residents to erect in their native town a library building as a memorial of their name, their wisdom, and their generosity. Some towns, not so fortunately favored, have erected the library building by public appropriation. Such a building should be fire-proof, saving thereby, a large part of the annual appropriation in insurance; it should be commodious enough to meet the needs of our growing library; it should be well lighted and arranged for reading room purposes withal.

The matter is suggested now that it may be brought to the attention of any who may have in mind the erection of some memorial or the gift to the town of some useful reminder of the wise, unselfish donor.

In the meantime, that we may deserve any such beneficent gift, the town must maintain its library at its present high standard.
